

Rescheduled!

JOIN US FOR A GEOLOGY WALK WITH

MAYOR KARL DEAN

SATURDAY, FEBRUARY 18TH, 2012, 1:30PM

PERCY WARNER PARK

Who: All individuals, families and groups welcome.

What: Dr. Molly Miller, Earth and Environmental Science Professor at Vanderbilt University, accompanied by Anne Choquette, a Hydrologist with the U.S. Geological Survey, will lead a 2 mile walk through Percy Warner's Mossy Ridge Trail. Participants will be shown major rock formations and learn the history they record. Hear about how Nashville's landscape was once a Bahamas like paradise and a stagnant ocean bottom thick with dead algae eventually transformed into oil and gas. Don't miss the chance to chat with the Mayor, learn about nature, and get healthy. Dress for cold weather, bring your camera, and water. Also, wear walking shoes or boots - portions of the trail may be muddy!

Date/Time: Saturday, February 18th. Walk begins at 1:30p.m. Walk will be cancelled only in the case of severe weather, snow or icy conditions. Check the Mayor's Facebook page at www.facebook.com/MayorKarlDean for updates!

Where: The walk will start at the Deep Well Picnic Area in Percy Warner Park. The trailhead and parking is located off Highway 100. A map is located at:

http://www.nashville.gov/parks/images/previous/percywarner_map.gif

Directions: Take I-40 to exit 199 (Old Hickory Blvd. Exit). Take Old Hickory Blvd. south towards Bellevue. Continue straight on Old Hickory for 3.5 miles, until it "T's" into Highway 100 at a light. Turn left on Hwy 100. Deep Well entrance is on the right in 2.2 miles. It is not signed; but is an ornate entrance. Stay straight on the park road passing picnic areas. Parking is available at the trailhead.

Questions? Jenna.Smith@nashville.gov or call (615) 967-8186.
